

SCHOLASTIC LEAGUE STARTS SATURDAY; ELYRIA LOOKS GOOD

Comparison of the Central Ohio League with the Northern Ohio Scholastic League shows the teams of this section of superior merit. While Bucyrus defeated Bellevue 13 to 9 and Mansfield won from Sandusky 14 to 6, neither Bellevue nor Sandusky are representative of the league. As a result, however, which played Mansfield to a close score for the title last year, was easily swamped by Lorain 5 to 0. Elyria also easily defeated Akron West 26 to 7. Lorain and Elyria together with Oberlin show up strongest this year.

The Northern Ohio Scholastic League starts Saturday with Elyria at Fremont, Oberlin at Bellevue and Lorain at Norwalk. Elyria, Lorain and Oberlin were expected to win. The real test of the teams came Oct. 6 with Bellevue at Elyria, Fremont at Lorain and Sandusky at Oberlin. The real game will be at Oberlin.

Valley City plays at Wellington Saturday and Amherst goes to Wellington on Oct. 6. These teams have long been rivals.

YANKEES ENJOY THE ANNUAL SLUMP

Team Hits With Babe Ruth Who Hasn't Been Hitting of Late

NEW YORK, Sept. 27.—Just twelve months ago almost to the day, the New York Yankees were pleased to have themselves visited by a hitting famine that began a week before the end of the regular season and ended on the final day of the world's series. They couldn't hit a medicine ball with a fly swatter, and in consequence the Giant pitchers were made to appear better than they really were. History has been known to repeat. Likewise the Yankees.

Today they are in another hitting slump and even George H. Ruth, the well known left fielder, has become a party to the proposition. In fact, George has hit so infrequently of late that he has just about made himself a victim of self elimination in the race with Harry Heilmann for individual batting honors.

"I don't like the way the boys are swinging," declared Miller Huggins today. "The games of the last two days were all too reminiscent of last year when the team fell into a batting slump before the end of the campaign and carried it right through the world's series."

It is no star chamber secret that the ball club, in toto, adapts itself with marked readiness to any and all moods that may seize upon Mr. Ruth. When he hits, they hit. When he doesn't, they do not. Seemingly, it will be the height of presumption to sock one on the line when the noble fellow himself is unable to do likewise.

Ruth has been in a hitting slump for more than a month. In late August he was batting in the neighborhood of .405; today his average is .395 and subject to sinking spells. It was much the same last year, only more so.

On that occasion Ruth went into the world's series with a band wagon and emerged to the plaintiff notes of a piccolo solo. His average was something like .128 and this in spite of the fact that

OBERLIN CUTS SQUAD TO 37

OBERLIN, Sept. 27.—The Oberlin football squad was cut to thirty-seven members today when Coach Del Stallings posted a list which dismissed about a dozen candidates. A further cut is expected later in the week in preparation for the Hiram game which opens Oberlin's schedule here Saturday.

The squad is being whittled into shape slowly but satisfactorily. A shortage is still in evidence at end and tackle, but new material ought to take care of this. Stocker, junior, is showing some speed at that position. Slesinger, who last season played at center and tackle, is now being remade into an end. Jones, Parsons and Channon are also promising for this position. Coach Stallings is well pleased with a shift of Spangle from tackle to guard.

Material from the sophomore class is making a good showing for the team. Crafts at quarter, Burnett at full and Michener at half held their backfield positions during most of the afternoon today. Rockwell in the backfield and Fisher, Downe and Arridson on the line are also showing up well.

Tagging The Bases

Morrison confined the Phils to one hit and the Pirates won, 6 to 0.

A five run rally in the tenth gave the Tigers two straight over the Yankees, 8 to 3.

The Indians came back like an unpaid bill and took two from the Athletics, 5 to 3 and 4 to 2.

Davis limited the Red Sox to four hits but issued five passes, hit a batter and made a wild throw, the Browns losing 3 to 2.

THE CHRONICLE-TELEGRAM CAN MCGRAW HYPNOTIZE THIS ARRAY OF PITCHERS?

The entire Yankee pitching staff. Left to right, Sam Jones, Joe Bush, Rob Shawkey, Waite Hoyt, Carl Mays, Herb Pennock, Gus Roettger and Roger Piggas.

"This is all there are. There are no more. In other words this is Miller Huggins' entire pitching staff, from 'Hitlers' Sam Jones to Gus Roettger and Roger Piggas, the newest rookies. If John McGraw can tie them hand, foot and brain again as he did last year and in 1921, the Yankees will not be trimmed for the third

straight time. And if this happens Huggins probably will be willing to trade the whole line of them for what they'll bring in the exchange column—an old

phonograph, second-hand incubator or anything else at all useful. But Huggins hopes that he can break the spell this year and beat the Giants.

"LET'S GRIN WHILE WE HAVE CHANCE," SAYS HUGGINS TO HIS YANKEE BOSS

Manager Miller Huggins of the Yanks and Col. Jacob Ruppert, Yank owner, "having one" on seven American league clubs.

The Giants may knock it off their respective faces a' long as usual, but right now Manager Miller Huggins and the Yankee owner who pays him on the first and fifteenth, Col. Jacob Ruppert, are smiling—quite broadly, y' know. The Yanks have clinched the A. L. pennant, put a lot of dough in Ruppert's library safe, and are ready for more worlds to conquer. Oh, if it only wasn't the Giants.

INDUSTRIAL BOWLING MEET THIS EVENING

A meeting of team captains and officers of the new Industrial Bowling League is called for this evening at the Gala alleys. President Bob Dumas is anxious for a full attendance, and states that vice presidents, a secretary and treasurer will be chosen. The new league has every prospect of being a big success this year, and a large entry list is looked for. The Gala alleys are being put in good condition and all games are to be played there.

NOTICE TO COAL USERS SAVE 40% ON YOUR COAL BILL DO AWAY WITH BLACK SMOKE

200% GUARANTEED PER YEAR ON A SMALL INVESTMENT

A Revelation in Heating Efficiency—Less Coal, Less Labor, Comfort and Health BURNS ALL GAS AND SMOKE

An Engineering Service THIS IS WHAT USERS SAY:

We heat one acre of floor space in our store. Two years ago we installed the Crown Fuel Saver, and they have paid for themselves many times over. If you will go to the roof and see the black smoke and soot from other buildings, then see our chimney, you would think we had no fire at all. If every merchant and manufacturer would install the Crown Fuel Saver what a wonderful improvement it would be for our city.

Sept. 29, 1922. The Geo. H. Knollenberg Co.

By Frank H. Haner, Mgr., Richmond, Ind.

Another One of Thousands, from Coast to Coast.

The boilers equipped with the Crown Fuel Saver steamed much quicker with more even distribution of heat, one-third less tinkering and a saving of 1000 lbs. (1-2 ton) of coal a day. I ask, therefore, that all boilers of our High and Graded schools be equipped with the Crown Fuel Saver at once.

C. H. Poland, Supt. of Board of Education, Bridgeport, Conn. (All schools are not using the Crown in Bridgeport.)

Chicago Masonic Temple April 16, 1922

After 5 years of constant use of two Crown Fuel Savers, we are satisfied that it was a very wise investment. We are convinced they have paid for themselves several times over each year.

FRANK E. LOCKE, President.

Eureka Vacuum Cleaner Co. is so good, that I have recommended them to many and to all of our employees. I am only too pleased to recommend any device that has the merit the Crown has.

E. R. Field, Vice Pres. and Gen'l. Mgr.

We have thousands of such references from users: Churches, Schools, Hotels, Homes, Theatres, Manufacturers, Green Houses, Apartment Houses, Hospitals, Office Bldg. Banks, Stores, etc., who vouch for a 40% saving in coal. More heat, no smoke or gas and 1-3 the labor and care.

Ask quick if you want one this winter. The factory is 30 days behind orders and we can only get 24 a week. First come, first served.

They are made to order, according to the square fathoms of the box. The cost runs as follows:

No. 2—For small heating plants cost \$26.00 installed.

No. 2A—For general home sizes cost \$35.00 installed.

No. 2B—For hotels, apartment houses, stores, etc., cost \$42.00 installed.

No. 1—For large plants, manufacturers, etc., cost \$48.00 installed.

If interested notify me at once and I will call to measure up your heating plant.

FOOTBALL SEASON WILL OPEN SUNDAY; THREE BIG GAMES

The semi-pro football season will get underway in this section Sunday when the heavy and fast Bedford eleven meets the Ruth's Semi-Pro. The Lorain county team which is going after state honors. The Bedford Semi-Pro, the Lorain county team which is going after state honors. The Bedford team has an established record.

In addition to four Elyrians on the county team there will be the selection of stars from Lorain and Amherst; and at least four former Oberlin college stars on the team besides a couple of Cleveland natives.

The Elyria Eagles will open the season at Sandusky which plays the Lorain Mercuties on which a couple of Elyrians are playing the following Sunday. The Eagles will open at home a week later with the strong Akron team.

The Elyria Barbers journey to Akron, Sunday, to play the All-Stars. This team is making a bid for the Elyria championship.

ELYRIA EAGLES ISSUE STATE FOOTBALL DEFY

The Elyria Eagles, city champions and playing semi-pro ball issue a state defy to 160 pound teams both for games at home and abroad. W. E. Harper, 149 Williams St., Elyria, is manager and Oscar Jacobs, is captain of the team.

DEWHURST HIGH IN GUN SHOOT

Dewhurst was high man in both singles and doubles yesterday at the Elyria Gun club shoot, nosing out Findley by one bird on the singles, with Dickinson a close third. Wise also made a fine score with a twenty-gauge gun, while Ellis a new member has all the elements of a regular shooter when more familiar with conditions.

Yesterday's attendance was very encouraging and the boys are tuning up for the club championship on October 10th. Some of them are going so good that it is hard to predict a winner. Yesterday's scores follow:

Fifty birds—Dewhurst, 43; Findley, 42; Dickinson, 41; Smith, 40; Wise, 38; Jefferson, 38; Wadsworth, 37; Day, 33; Hollingsworth, 31; Ellis, 19.

Doubles—Dewhurst, 17; Hollingsworth, 14; Jefferson, 12; Smith, 9; Hallauer, 11; Ellis, 7.

ELYRIA AND AMHERST SOCCER TEAMS STRONG

Both Elyria and Amherst have strong teams in the Cleveland Soccer League this year. Elyria is the stronger. Both have met the Cleveland Danes, Amherst holding them to a 1-1 tie while Elyria had a walk-over. This is the first season for Amherst in the league. The locals play at Edgewater Park, Cleveland, on Sunday.

EAGLES TO PRACTICE TONIGHT AND FRIDAY

The Elyria Eagles football squad will have two more strenuous practice sessions before the opening struggle of the season, at Sandusky, next Sunday—tonight and Friday night at 7:30 o'clock, at Riverview park.

Captain Jacobs says that this is the last chance to make the team and all men who were out on Tuesday night are requested to report for these two sessions.

GERMANY'S ONLY SALVATION IS WORK

THURSDAY, SEPTEMBER 27, 1923

GUARD THE HEALTH OF THE CHILD

Sometimes a child is unable to accomplish what he expects of it and the disappointment in the parents produces impatience and the impatience, harsh words, and the child is made nervous and finally becomes discouraged. The parents later may find that the reason for the child failed to measure up to the parents' expectation has been because of some physical weakness and when that was corrected the child sped forward rapidly to the delight of the parents and the satisfaction of the child.

The other day we heard of a case where a child reached the age of eleven years before the child or the parents learned that it never had the sight of one eye. Of course, there were times when the child failed to do all that it might have done with two eyes. Again, the tonsils may be wrong so that the breathing is affected, the vitilization of the blood is disturbed and the child is not accomplishing. A correction changes the child from mediocrity to keenness.

Children may be charged even with stupidity who could not be stupid if some physical handicap was removed, of which both the child and the parents are unaware. For example, take the statement of Prof. Thomas W. Wood, of the Teachers' College of Columbia University. He says that twenty-five per cent of American rural school children have defective vision. He states that the rural children are not given as "careful cultivation as crops and live stock."

Of course, we all know that defective vision of any kind, whether it is due to far-sightedness, near-sightedness or astigmatism, is like any other trouble. It increases as it proceeds so that of course in a neglected child, the older it is, the worse it's off, and the unfortunate part of the whole matter is that during the years of its neglect, there has been much wasted time and energy. We should not become morbid or nervous about it, but it is well for us to be watchful and helpful.

A PEACE MOVEMENT WE SHOULD ALL SUPPORT

We want to commend the activity of National Commander Alvin Owsley of the American Legion on behalf of a world conference for air disarmament. In relation to this he said:

"As a result of my European trip where I viewed at hand conditions, I urge more strongly than ever the necessity for such a conference. With conditions as they are in the world today, America must either work for peace or prepare for war."

Commander Owsley also said that the organized veterans of England, France, Belgium and Roumania have agreed to bring pressure to bear upon their respective governments to participate in the conference.

If this idea is carried out in a complete and satisfactory manner, it will really mean more toward the elimination of war than the agreement on navy reduction, because the next war, without any question, will be fought in the air, and hence reduction in the naval armament is almost akin to an agreement by the nations that they would do away with the flint lock and the muzzle loader. The militarist probably grinned as he accepted the suggestions of the peace conference as far as they pertained to the navy. But Commander Owsley, in this particular, strikes at the very heart of the question. If we can get a conference on this subject that will come to an agreement that will mean something, the conference itself will have a mighty salutary effect upon the war spirit of the world.

POEMS THAT DIE

"THE FARMERS LAMENT"
(To Jim Armitage)

We've read all your jokes
 Since you made the first start,
 From the blazing old trail—
 Will you never depart?
 For we don't know yer pals
 But they're not to blame
 For we're just plain old farmers
 That live in R. D.

You've joked of the missis,
 You've joked of the kids;
 And we can't get the fun—
 Of their doings and duds,
 But they're not to blame
 And forgetting they'll be
 Of we silly old farmers—
 That live in R. D.

That you go a-fishing,
 You tell us quite plain;
 Of the funny old stunts;
 When you come back again,
 Some yelling with glee—
 But not we old farmers,
 That live in R. D.

The missis, the kids,
 The pals and the fish,
 Drop the Ford and the flivver,
 Is all that we wish;
 A crock some new dope,
 Is the pitiful plea,
 Of we seedy old farmers,
 That live in R. D.

—Ralph Razzberrie.

TIMELY VIEWS ON WORLD TOPICS

"RECOGNITION BY U. S. WILL SEND MORE MILLIONS TO MEXICO," SAYS ENVOY

While millions of dollars' worth of American capital already is invested in Mexico and vast American interests have operated for years in the southern republic without conflict or great interference, other millions have awaited recognition and the announcement of the resumption of diplomatic relations between Washington and Mexico City.

This is the opinion, recently expressed, of Don Manuel C. Telles, Charge d'Affaires of the Mexican Embassy, to whom credit is given in official and diplomatic quarters for the way in which he has represented his country in the United States during the period of non-recognition.

Needs Bank of Issue
 Senator Telles pointed out that while Mexico has been living practically off her own resources for ten years, she is today the only country in the world on a strictly metallic basis, only gold and silver money being in circulation. This while putting Mexico in a superior position to that of France, Italy, Belgium or practically any other

European country, is ascribed primarily to the fact that Mexico has no national bank of issue, and there are therefore no bills in circulation.

The lack of bills of large denominations and the narrow scale upon which credit operations are carried on act as a severe handicap to large scale business, and it is believed that a great impetus will be given to commerce and industry of all kinds, once the national bank of issue is in operation.

Mexico, the Charge d'Affaires pointed out, has an almost unlimited range of agricultural products since her climate varies from tropical to temperate. There is a saying in Mexico that the country can produce anything from a pine tree to a pineapple.

Sees Boom in Mining
 Mexico, too, is one of the principal mineral producing countries in the world, being first in silver production and third in the rank of oil production, and also having an abundance of gold, copper, antimony, tin, mercury and other minerals. Senator Telles looks for a great increase of the mining industry as a result of recognition.

Heretofore the Mexican diplomat insisted that Mexico has imported practically all of her manufactured products. It is the well-defined policy of the Obregon Government to develop manufacture, and while this policy will call for a considerable outlay of machinery and other manufactured goods in the beginning, the industries established will have the advantage of an almost inexhaustible supply of raw materials, while it is believed Mexican labor will prove entirely satisfactory.

WHO'S WHO IN THE DAY'S NEWS

COL THEO. ROOSEVELT JR.

Is Theodore Roosevelt Jr. about to take another step in his father's footsteps? Reports from Washington would indicate that. According to recent rumors the young "Teddy" now assists a secretary of the navy, is to succeed Edwin Denby as secretary in the near future.

It was from the relative obscurity of the assistant secretaryship of the navy department that the elder Theodore

leaped into fame by way of the Spanish war. As a matter of fact, Theodore the younger started his political career with far greater renown than his father, for the former, true to his traditions, dropped his business connections almost the moment America decided to fight Germany and went into training in Plattsburg. He emerged from the war a lieutenant colonel. Thus accelerated he entered politics and won a seat in the assembly in Albany. Roosevelt returned from France in command of the Twenty-sixth Infantry. Not all his experience in France was gained in the line, however, for he spent considerable time in Chateau with General Pershing.

He is thirty-six years old, a

made a visit to Eljria and gave a lecture at the town hall.

THE YOUNG MEN'S SODALITY of St. Mary's church was organized. William Fox was made president; Fred Wagner, vice president; Frank Wagner, treasurer; Peter Miller, secretary, and James Burns, marshal.

IN THE DAY'S NEWS

Maurice Francis Egan, who is reported critically ill at his home in New Jersey, is an eminent scholar who also has a high reputation as a diplomatist, gained by some years of service as United States Minister to Denmark. Dr. Egan is a Philadelphian, and from 1877 to 1888 was connected with newspapers. Then he was called to teach English literature in the University of Notre Dame, Indiana, and remained there until 1895, when he took a similar chair in another university, and it was then that President Roosevelt asked him to enter the diplomatic service. During his long service in Copenhagen he did much to educate the American public in Denmark's distinctive methods of promoting thrift, rural development, agriculture, and the like. Dr. Egan has been a prolific author of fiction and of verse. He has done creditable work in translation, and has had many honors from colleges and associations.

Plank Zarnke, Lloyd Sweet and Carl Taylor went fishing. They drove to Sandusky about 4 o'clock in the morning and started to fish before daylight. They were about a mile out in the lake when Sweet discovered he'd left the bait in the flivver—then they rowed back. You can't fool a policeman.

And Chief Bates went and got his car painted a bright orange. John Halpin told me the Chief would lose the Irish vote.

If Jack Cullin's house ever catches fire, and the chief drives down to it in that orange bus—Jack won't even let him turn a hose on it.

They played a mean trick on Henry Beck. Seems as though Henry is quite a flower fancier. The boys at city hall gave him some onion sets, telling him they were Chinese lilies. He thought they were—until they sprouted. Ask him about it.

The political pot is starting to boil. It didn't boil in the "good old days"—it used to get stewed.

Didn't see the Prince of Wales in Canada—but the Jack of Diamonds cost me seventy-five cents one night.

Since McHenry's postmaster I guess the postal rates have advanced, it cost eighty-five cents to send the flivver back Parcel Post.

They don't seem so keen for the "Star" as they don't take any exception to accepting your money at par.

There wasn't any band out to meet us—we didn't need any.

POEMS THAT LIVE

FOR A FOUNTAIN

Rest! This little fountain runs
 Thus for aye:—It never stays
 For the look of summer suns,
 Nor the cold winter days.
 Whoso'er shall wander near,
 When the Syrian heat is worst,
 Let him hither come, nor fear
 Let him may not slake his thirst.
 Let him find this little river
 Running still, as bright as ever,
 Let him drink and onward lie,
 Bearing but in thought, that I,
 Erotas, bade the Naiad fall,
 And thank the great god Pan for all!

BULGARIAN GOVERNMENT TREMBLES AS REVOLT GROWS

Scenes in Sofia. Upper photo shows the houses of parliament (center), church of St. Nicholas of Weak (left), and monument to one of Bulgaria's hero-rulers. Lower photo shows scene in market square. Note the soldiers are wearing uniforms of Russian type.

While dispatches from Europe of 100,000 peasants on Sofia, the capital, the revolt is believed to be spreading rapidly. That the Zankoff government is doomed is unquestioned. Revolt leaders say the uprising is an agrarian movement and not a communist one.

RUHR SECESSIONS MAY BRING GERMAN SECESSIONS

Map shows areas where secession sentiment prevails in German republic and mobilization points of communists.

Surrender of Germany in the Ruhr to the French invader is believed certain to result in secessions from the republic and a possible communist uprising.

Bavaria will secede in the event of Ruhr surrender, it is reported, and East Prussia, Pomerania and Mecklenburg may do likewise. The Reds are said to have designated Thuringia and Saxony as places for the gathering of the forces in the event of a Bavarian secession from the German republic.

It is possible that Von Kahr and Hitler may join forces later on. The tenor of the whole Bavarian movement is against separation from the rest of the German state, but is designed to show an aggressive front to Berlin with a view to driving the socialists out of power and creating a strong government such as Mussolini has put in power in Italy. Bavaria wants to be the dominant force in such a government.

Von Kahr issued warning to all parties not to attempt any coup against his dictatorship.

By FRITZ EBERT, Son of the President of Germany (Copyright 1933 by International News Service).

BERLIN, Sept. 27.—The action of Bavaria in appointing a dictator is most disastrous. It is a storm signal. The crucial question today is: Will the Von Kahr give the privilege to evacuate in favor of the Von Kahr dictatorship?

Is it possible (people the asking) whether Munich has merely let down the curtain behind which the Bavarian fascists have been active for weeks? Behind this curtain they may have been planning on bigger things than a mere display of strength.

At any rate Bavaria sets the ball rolling. Germany is faced with her supreme test.

The test that faces Germany in the next few weeks is one between republicanism and monarchy, with the fascist arrayed on the side of the latter.

A redeeming feature of the situation is the fact that the Bavarian leaders are not united. All are pulling in different directions. Dr. Hitler and Von Kahr are chief and outstanding figures in the Bavarian movement. Hitler would be forced to assert his own power. It is possible he may succeed in enlisting a majority of the Bavarian people in the ranks of the black-shirts.

If it should come to a test of armed strength the Hitlerites should win, having the better organization.

The first phase would be a scramble for the dictatorship among the various leaders.

(Ebert obviously refers to a political dictatorship as his article was written after Minister of defense Gessler had been appointed dictator by the Reich government.)

It is obvious that any effort to struggle would take place between the political parties. This would give the responsible leaders in Bavaria and the balance of Germany time to make plans to save the nation before an armed clash could result.

Many Hart in Clashes. ANNABERG, Germany, Sept. 27.—Many persons were wounded in violent clashes between communists and police here today.

U. S. Hopes Dwindle. WASHINGTON, Sept. 27.—The feeling of optimism that had prevailed here over the entire reparations problem as a result of the ending of Germany's passive resistance in the Ruhr ended abruptly today as press diplomatic advice brought government officials news of internal disturbances in Germany, culminating in the establishment of a real dictatorship.

It had been the opinion of President Coolidge and other officials of the administration that the conservative policies of the Stresemann government augured well for the opening of new negotiations for the French and Germany and for the speedy settlement of the long dispute over the payment of reparations.

This government had not gone so far as to indicate its willingness to take part in a new reparations conference, but it was made plain that any efforts to reach a solution would go forward with the moral support, at least, of the United States.

Disintegration of the German empire, however, according to the view here, would make negotiations impossible for some time to come and would throw the whole European situation into a worse condition than it has been at any time since the world war.

Aside from the general humanitarian considerations involved, the United States desires an amicable reparations settlement for two reasons.

First, because the way would thus be opened for the payment by the allied governments of the \$5,000,000,000 war debts owed the United States and

Second, because the establishment of a real peace would be the first step in the extension of American foreign commerce with the reopening of markets in central Europe for this country's surplus farm products.

Although the Coolidge administration is insistent that Europe's debts be paid, hope has been about abandoned that any substantial Gelsenkirchen district.

liquidation can be accomplished as long as the powers continue to exert most of their efforts to their own money quarrels with Germany.

If the reparations problem and its attendant international difficulties could be eliminated, according to administration officials, surplus crops in the United States, now proving a drag upon the market, could again be exported with the result that there would be a decided improvement in the domestic agricultural situation.

Saxony Peevish. DRESDEN, Sept. 27.—Indignation against Saxony today over the appointment of Minister of defense Gessler, national dictator.

Premier Zignor, of Saxony, has been conducting a bitter campaign against Herr Gessler, characterizing him as a "tool of the national lists."

There is a possibility that Saxony may establish a dictatorship of her own, following the lead set by Bavaria.

The communist movement in Saxony is strong and the state is close to Moscow.

DUSSELDORF, Sept. 27.—German communists today called a general strike of coal miners in the Ruhr. It is already effective in the Gelsenkirchen district.

ELAND, Sept. 27.—Members of the Brotherhood of Railroad Men and Order of Railroad Men in all sections of the United States voted "overwhelmingly" in favor of demand for a wage increase of approximately fifteen per cent. W. N. Doak, vice president of the trainmen announced this afternoon.

The demand will be presented to the management of the railroads within a short time, it was announced.

EAST LIVERPOOL, O., Sept. 27.—Mrs. Emma Vankirk, 30, whose skull was fractured when her husband struck her with a blunt instrument last August 23, died here today. Her husband, Robert Vankirk, committed suicide by shooting after attacking her in a fit of jealousy.

PLANS CHEAPER COAL

HARRISBURG, Pa. Sept. 27.—Upon his return to the capital today following a vacation, Governor Pinchot at once began work upon his plans for the reduction of the price of anthracite coal to the consumers. He conferred during the morning with state officials upon this matter.

WIFE AND CHILDREN ANXIOUSLY AWAIT FATE OF WARD AS HIS TRIAL NEARS END

Mrs. Beryl Curtis Ward and the Ward children. The photo is one of the most striking of the Ward family.

As the trial of Walter S. Ward, millionaire baker's son, charged with murder, nears the end Mrs. Ward, who has stood staunchly beside her husband, and the two Ward children are anxiously awaiting his fate at the hands of the jury. The children, of course, know only that "papa" may be home soon or may have to stay away "for ever so long." Ward has been on trial on a charge of killing Clarence M. Peters, a sailor. Mrs. Ward sat beside her husband all through the trial and testified in his behalf.

Cartoon Comedy At Rialto Friday

"Barney Google and Spark Plug" whose funny antics in the comic section of the newspapers, have made millions laugh, have been made the central figures in a hilarious cartoon comedy, in which they are surrounded by all the other characters of the cartoons and a big chorus of beautiful girls.

There is singing, dancing and fun galore in the stage version of "Barney Google and Spark Plug." When it is placed on view at the Rialto Theatre tomorrow night Friday Sept. 28 the theatregoing public are going to see what has been called the world's greatest fun show.

The musical comedy made from Billy Debeck's original "Barney Google and Spark Plug" cartoons was constructed for entertainment only. The hilariously funny situations in which "Barney Google and Spark Plug" is involved cause no end of merriment, and when the audience is not enjoying a good laugh they are listening to the musical numbers, written by Con Conrad who is also the author of the biggest song hit of the year—"Barney Google."

Particular care has been taken by Dan Dody with the staging and costuming of "Barney Google and Spark Plug." The fashion-plate chorus is gowned in various fetching and stunning gowns all of which match harmoniously with the beautiful stage pictures and novel electrical effects.

William K. Wells, author of the book, is also author of George

Alumni Teams In \$100,000 Drive

AMHERST, Sept. 27.—Cleveland, Ohio, is the first city in the United States to have a \$100,000 drive to build a new stadium, declared Dr. W. F. Sweeney, director of the Ohio State University fund, at a team captains' meeting at Hotel Statler last night. "We are going to put this stadium on the map," he said. "We must bank on the men and women in Cleveland, because Cleveland cannot pay other city in the country," Dr. Sweeney said.

Twenty captains of the men's basketball team selected teams of alumni to build the stadium, to be completed between Oct. 19 and Oct. 20.

President Henry Churchill King and Mark L. Thomson, chairman of the men in the national campaign, were at the meeting at which A. S. Smythe, Cleveland men's basketball president.

Twenty captains of the women's basketball team selected teams of alumni to build the stadium, to be completed between Oct. 19 and Oct. 20.

Grand Jury Will Have Long Meet

The grand jury are a very busy bunch of men and women at present, and have work lined up for them for some time to come. Prosecutor Webber stated today that they would have about one hundred cases to investigate, and that he did not expect they would be able to report before the latter part of the coming week. This is a larger number of cases than any previous jury has had to consider. There are a number of John Doe cases, and many of them are for minor offenses. Pretty near every minute in the catalogue will be gone into before they are through.

Miss L. Shields Tells How Cuticura Healed Pimples

"My trouble began by little red spots appearing under the skin and then broke out with pimples. The pimples were large and red, and later fostered my face was almost covered with them and they itched and burned causing me to scratch. At night I could not sleep well. The trouble lasted about a year. I began using Cuticura Soap and Ointment and they afforded relief in a few days. I continued using them and was completely healed after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment." (Signed) Miss L. Shields, Star Rt., Buena Vista, Ohio.

Daily use of Cuticura Soap, Ointment and Talcum helps to prevent skin troubles.

Sample Free by Mail. Address: "Cuticura Laboratories, Dept. 2, Station 64, Boston 1, Mass." Send every three cakes of Cuticura Soap and three boxes of Cuticura Ointment for a sample of Cuticura Soap and Ointment.

STOCKS

NEW YORK, Sept. 27.—Stimulated by yesterday's favorable dividend action on Baltimore and Ohio, the whole railroad list displayed strength at the opening of the stock market today. Baltimore and Ohio rose 2 points to 57; Northern Pacific 1 1-2 to 59; Great Northern Preferred 5-8 to 56 1-8; Union Pacific 5-8 to 129 1-8; Southern Pacific 3-8 to 87 1-8; Southern Railway 3-4 to 34 3-8 and St. Louis and San Francisco Preferred 1-2 to 43 1-2. The industrial list opened slightly irregular. U. S. Steel yielded 1-8 to 87 1-8; Crucible rose 7-8 to 59 1-4; Gulf States Steel off 1-8 to 75 5-8, and American Locomotive up 3-4 to 70. Studebaker lost 1-8 to 97 1-2, but Mack Truck rose 1-2 to 75 3-4. Sinclair oil rose 1-8 to 17 7-8; Producers and Refiners 1-2 to 23 5-8 and California Petroleum 1-8 to 19.

NEW YORK, Sept. 27.—Interest in the forenoon trading on the stock exchange today was chiefly centered on the railroad group, which following a display of initial strength receded along with the

sagging tendency which developed in the industrial list. Baltimore and Ohio rose 2 points to 57, but later yielded about one point. The remainder of the list was steady, with Northern Pacific at 57 1-4, Southern Pacific 86 5-8 and Great Northern Preferred at 54 7-8, fractionally lower.

Price movements in the industrial list again testified to the purely professional character of recent transactions.

BREAKS ENGAGEMENT TO NAVY OFFICER TO ELOPE WITH SON OF A DAIRYMAN

Mrs. George Wise, nee Miss Catherine Radcliffe.

Half a dozen elopements within a week's time have left social Washington dazed. One of the speedy romances is that of George Wise and Miss Catherine Radcliffe. Miss Radcliffe, niece of Lord Glanely of London, was engaged to marry Lieut. Julian F. Brown of the U. S. marine corps. The wedding date had been set. Then, after a two-day romance with George Wise, son of a Washington dairyman, Miss Radcliffe broke her engagement to Brown and eloped to Baltimore with Wise, where they were wed.

This year the visiting artists are from Cleveland, all prominent in music circles of that city, who come to Elvria to be guests for an afternoon of First Church members and to offer their program in the evening. The latter will be given in the spirit of an intimate parlor musicale before an audience of kindred music lovers.

The list of contributors to this event is unusual and notable including Mme. Nicola Cerri, wife of the Italian consul in Cleveland, an accomplished pianist, and Mr. and Mrs. Arthur Pomeroy, in attractive violin-piano selections. A feature of the program will be the singing of an opera by Lehman.

NEW OFFICERS FOR METHODIST CIRCLE

Twenty members of Circle No. 2 of the Methodist church met yesterday afternoon at the church. At this time the following officers were elected for the coming year: Mrs. A. R. Carsten, chairman; Mrs. Elmer Jump, secretary; Mrs. Fields, treasurer; Mrs. John Brandau, Sunshine treasurer.

The circle will enjoy a luncheon dinner on October 15th at Mrs. C. B. Mincks home on the Oberlin road.

CIRCLE NO. 2 OF ST. PAUL'S Circle No. 2 of St. Paul's held a meeting yesterday afternoon with Mrs. I. D. Cartwright on West street.

During the general business discussion plans were made for a chicken supper in October. Miss Oswald, Mrs. Arthur Robertson and Rev. Paul Bourquin were the guests of the circle. The next meeting will be in the church parlors with Mrs. Schultz as hostess.

The Way Madge's Plans to Meet Dicky Went Wrong.

IF THERE is any exhibition more futile or more amusing than that of a woman who does not understand the mechanism of a car attempting to cure a motor of balkiness, I do not know what it

With an audience of every member of the family, save Junior, safe in his crib upstairs, I frantically tried every expedient I knew, and those that were suggested to me by the other members of my family group, all of whom save Jim knew even less about machinery than I did. Finally in despair I turned the car over to Jim, but he met with no better success than I had.

"If I had a motor car wouldn't go," Katherine chanted under her breath, but the laugh I gave her was distinctly forced. "I don't feel much like 'acknowledging this one,' I admitted, continuing the parody, 'but there's nothing I can do to help it. It's too late to get a taxi here now.' 'You've missed your train anyway,' Mother Graham announced. The local is whistling now from Sag Harbor."

"If the car were only ready our demon driver could make it nevertheless," Katherine smiled affectionately at me.

"Yes, and break her foot neck!" Mother Graham snapped. "Come into the house, and let's see what's best to be done."

With a vindictive glance at the car which had failed me when I most needed it, I made one of the procession which trailed meekly after my mother-in-law. Katie halted in the kitchen, but Mother Graham had other plans for her.

"Go upstairs to Richard Second," Katie said. "No, prepare his breakfast first, and then take it up to him. Now, girls, come in here."

Katherine followed her into the dining-room, and my mother-in-law seated herself in a large chair and turned majestically to me.

"Give My Love to Richard." "Why you chose to depend upon that car this morning when an errand as important as Richard's depended upon you, I have no idea. But the mischief's done now. Is there any possible chance of your getting in?"

"I had been running the gum of the possibility ever since I heard the whistle of the train, and I was ready with the only possible solution."

"There's a train which leaves here at 10:30," I began.

Pharmacists call it "Joint-ease" because it's for swollen, sore, painful, creaky joints only.

It took a good many years to get her a combination of pain-subduing and swelling-reducing agents tried to be the one remedy that it instantly penetrates, through and flesh and starts right in on the swollen, inflamed, creaky, cracked joints as good as new. They call this new and wonderful preparation "Joint-Ease" because the medical man who turned sick, worked for years to persuade some low-priced remedy that it really benefited the millions of people who have one or more joints that need helpful attention. "Joint-Ease" is prepared only for people who have a swollen, stiff, creaky, distorted or stiff joint, whether it be in knee, elbow, ankle, neck or finger and is caused by rheumatism or anything else.

Course, it can't help but quickly get an end to such superficial things as lumbago, neuralgia, aching muscles, stitch in the side, crick in the neck or sore because of its penetrating action. But what it is really recommended for is joint ailments of any kind whatever.

for a tube of "Joint-Ease," use it several times in one day for quick results, because it is rubbed through the skin with a few seconds rubbing. It is a swift penetrator and it gets under the skin it is right in to clean up all joint trouble.

Jack Dempsey Says Newer Form of Iron Increases Strength

Jack Dempsey says: "In building up rugged strength, power and endurance there is nothing like filling your blood with strength-giving iron."

I firmly believe that it puts added power behind my punch."

Dr. Emil Sauer, well known New England Physician in commenting on Dempsey's statement says: "No man without plenty of good blood rich in health-giving and strength-building iron can go through life filled with vigor, force and power."

"Every thinking person should realize if men are physically fit as Jack Dempsey, Zack Wheat, Barry Hoyer and other leaders in the world of sport have helped to maintain their supremacy by the use of this newer form of iron which is called Nuxated Iron, how much more important it is for the average man to see that there is no lack of iron in his blood. A surprisingly large number of people suffer from iron deficiency. Without iron in the blood, you cannot be your best, either mentally or physically, because lack of iron not only makes you nervous, irritable, and easily fatigued, but robs you of that virile energy, that stamina and strength of will which are so necessary to success and power in every walk of life. To help make strong, keen, and blooded Americans their is nothing in my experience which I have found so valuable as Nuxated Iron. Get a bottle of Nuxated Iron today. Take it for two weeks, and if you have not, like health, strength and energy, the manufacturer will promptly refund your money. Nuxated Iron is sold with this 'satisfaction or money back' guarantee by all good druggists."

Platinum is found in small gray particles along with other metals, including gold and chrome-iron. Occasionally it is discovered in the form of nuggets, which are naturally extremely valuable. A 25-pound nugget of platinum would at the present time be worth \$20,000.

The Canadian Lumbermen's Association has decided to hold its next annual convention in Buffalo during the last week in January.

Up to the time of M. and Mme. Curie's discovery, pitch-blende, the jet black mineral in which radium is found, was regarded as being almost valueless. Mining companies actually paid large sums to have the residue of its pitch-blende supplies, from which other minerals had been extracted, carted away to the destructor. In this manner many millions of dollars in radium was lost forever.

Only 18 Homes in ELYRIA

THERE IS a shortage of heating equipment this Fall, in spite of the record production of our plants.

In fairness to our customers, we have allotted the entire available supply of ARCOLA outfits (an outfit consists of ARCOLA and an American Radiator for each room) to cities and towns in proportion to their population.

This sign in your Heating Contractor's window is the mark of the Merchant who sells ARCOLA. ARCOLA warms the room in which it stands and sends its hot-water warmth through pipes to American Radiators in every other room.

Next week is ARCOLA WEEK. Your Heating Contractor will sell his allotment quickly. If you want the comfort of radiator warmth in your home this Winter, ask him today for an ARCOLA estimate.

This means very few ARCOLA outfits for this city. While they last, these outfits will be sold at regular low prices (see the dealer sign reproduced below).

Dean Cole, of the College, gave an interesting talk in chapel Wednesday morning. He especially appealed to students to give thought to the friends whose thoughts were always with them, and of the parents, by whose sacrifice they were enabled to seek a higher education. Cole asked that before any student attempted to slip the bounds of restraint, that he think of those well wishers. It was remarked that a wrong does, in College, in his talk with the Dean almost invariably remarked that he was ready to take his medicine, but that it almost crushed him to think of the effect of his punishment on well wishers at home.
